## About Me

---

Software developer and content writer, combining coding skills with strong communication abilities.

## Skills

---

- **Frontend:** React JS, JavaScript, HTML, CSS, Redux, Zustand
- **Backend:** MongoDB, NodeJS, Express JS, RestAPI
- **Soft Skills:** Communication, Leadership, Adaptability, Problem Solving, Teamwork
- **Tools:** Git, GitHub, Postman, VSCode,
- **Language:** Javascript, Java

## Projects

---

### NetflixGPT

[Github](#) — [Live](#)

- Developed Netflix Clone. Used Firebase authentication for secure SignUp and LogIn feature. Redux for efficient state management
- Integrated **TMDB API** to display movie lists, trailers, and provide personalized movie suggestions.
- Implemented **OpenAI-GPT powered search functionality** to enhance user experience with intelligent movie search.
- **Tools Used:** React, Firebase, TMDB API, OpenAI API, Redux, Tailwind

### ChatterBuzz - Fullstack Messaging App

[Github](#) — [Live](#)

- Real-time messaging app built with React (frontend), Express and Node.js (backend), and MongoDB (database), enabling users to send both text messages and images with secure JWT-based login and signup authentication.
- Implemented Socket.IO for instant, bi-directional communication and used Zustand for efficient state management.
- **Tools Used:** React Js, Node Js, Express JS, MongoDB, JWT, Zustand. Tailwind, DasiyUI

### AI Trip Planner

[Github](#) — [Live](#)

- Developed an AI trip planner app with React, allowing users to log in using Google Auth, choose destination, number of visitors, and budget.
- Integrated **Gemini AI API** to generate itineraries with popular locations and stored user credentials and history in Firebase.
- **Tools Used:** React Js, Gemini AI API, Firebase, Tailwind, Shadcn

## Education

---

### University of Calcutta

June 2016 – August 2019

Bachelor of Science

**Subjects:** Physics, Math and Computer Science

## Experience

---

### ESRG Technologies

Kolkata, India

Frontend Developer Intern

May'24 – September'24

- Contributed to the debugging and resolution of issues in multiple client projects, demonstrating versatility and problem-solving skills.
- Delivered high-quality code and collaborated with other developers to meet project deadlines.
